FLOOD & WATER LIVE 2023

On **5 and 6 July 2023**, ADA, the association for flood and water management authorities throughout the UK, are hosting a unique working demonstration and exhibition highlighting innovations in sustainable water management and flood resilience. Flood & Water Live 2023 will be held in **Carrington near Boston, Lincolnshire** in partnership with Dyson Farming and the local Witham Fourth District Internal Drainage Board.

The live event will utilise adjacent watercourses and embankments, enabling visitors to discover the latest plant machinery, pumps, and maintenance equipment in action. Exhibitors will demonstrate their most recent carbon friendly kit combined with procedures for delivering biodiversity enhancement when managing watercourses and water infrastructure.

Flood & Water Live is **free to attend**. We look forward to seeing you there alongside other experts, suppliers, public authorities, land managers, and infrastructure providers from across the sector.

Visit **www.floodandwater.co.uk** to find out more and register now to receive your digital e-ticket for speedy entry.
